## WE KNOW HP QUALITY CENTER.

Assure works with some of the world's largest and most demanding Quality Center customers. We provide innovative solutions that address our customers' needs.

Building on our experience we now offer software products that address some of the key challenges customers face when working with HP Quality Center. We provide products that deliver an excellent ROI in a short time.

Assure distributes and delivers its products through a global partner network. We aim to find the best partners in different regions and to work with the market leaders. Our approach guarantees that our customers get the best service possible.

## ABOUT ASSURE

Years of experience with some of the most demanding customers and projects guided us to establish our own company as entrepreneurs, with only one goal in mind: to make customers even more successful with HP Quality Center.

Founded in 2006 and owned by its founders and key personnel, Assure has made solid financial results from the start. In the year 2008 sales reached 2,6 M\$ with a sales growth of over 38 %.

We are a strong and motivated team of experts dedicated to delivering you the best products and professional services.
