

PERFORMANCE PROBLEMS COST TIME.

TIME IS MONEY.

TUNE YOUR HP QC TO OVERDRIVE

Assure OverDrive for HP ALM & Quality Center

- Maximize your QA efficiency by improving the performance of your HP Quality Center
- Improve the User Experience – build the trust of your Users
- Gain real-time visibility to make sure your performance stays up-to-par
- Guaranteed results

THE CHALLENGE

Maintaining a successful HP Quality Center environment is challenging. If you don't continuously optimize your environment, you will face issues with performance.

Measuring the performance of HP Quality Center requires expertise that are often not found in organizations.

HP Quality Center is a mission critical system where performance concerns result directly in increased costs.

THE SOLUTION

Assure Overdrive includes a set of best-practice optimizations and techniques to dramatically increase the performance and reliability of your HP Quality Center environment.

The service comes with a diagnostic tool kit, which helps you constantly keep track on how your Quality Center is performing.

Assure Overdrive allows you to foresee any potential performance problems and helps you scale your Quality Center usage for future needs.

KEYS TO PERFORMANCE

DB Server Configuration	Application Server Configuration	Web Server Configuration
Network Architecture	DB Statistics Collection	DB Index Optimization
Java Garbage Collection	Server Resources	JVM Startup Parameters

How it Works

- Document the QC environment
- Measure current performance
- Identify pain points
- Identify business critical QC functionalities
- Create an optimization plan
- Execute performance tuning
- Provide analysis results
- Follow-up performance

Key Features:

Application Setup and Architecture

We assess your current environment and needs, and offer solutions for how you can improve your architecture.

Database Server Optimization

Our QC database experts tune often neglected DB Server OS settings, remove bottlenecks and implement solutions in databases.

Measuring Toolkit

We deliver you a complete diagnostic toolkit which helps you keep track of your QC performance and foresee any potential problems.

Application Server Optimization

We make sure the Application Server and Database Servers are tuned to work together with maximum efficiency.

Maintenance

Our maintenance service makes sure your performance stays up-to-date and you are always ready to scale up.

Tailored to Suit Your Business

We ensure your most critical business processes are optimized.

Deep Knowledge

Our knowledge of the inner workings of the QC system allows us to utilize many undocumented settings.

We have optimized some of the biggest QC environments in the world.

Results – or Your Money Back

We are confident about being able to take your QC performance to the next level. Therefore, we guarantee that once our product has been delivered, performance will increase in accordance with set targets.

ABOUT ASSURE

Assure provides innovative products and solutions for HP Quality Center customers. Using our solutions companies can achieve a standardized and enhanced use of HP Quality Center while lowering the TCO. Our growing partner network enables us to offer our solutions globally.

ASSURE PRODUCTS FOR HP ALM & QC

- Project Harmonizer
- Admin Console
- TrashBin
- Test Data Integrity
- **OverDrive**
- TotalView
