### THE BENEFITS

Libraries, Baselining and  
Version Control

Asset Sharing across Quality  
Center projects eliminates  
duplication of effort and  
enables reuse

Quality Center Project  
Templates for centralized  
change management  
and organization-wide  
deployments of Testing  
Processes

Cross-project Reporting

### THE CHALLENGE

How should you use these  
significant new features, and  
how do they fit your existing  
testing processes?

Which changes have to be  
done for existing projects?

How to deploy the change?

How to educate the  
organization?

How to get it right?

### WHY ASSURE?

Assure specializes in the creation and deployment of Quality Center of Excellence solutions for large-scale enterprises and has been working in cooperation with HP on Quality Center 10 as part of the Early Access Program (EAP) and Enterprise Management Alliance Program (EMAP) partnership.
